A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out

Science has taught us wisdom. The evil spirits exist 'still. We call them "" Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result.

ENOS FRUIT SALT

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new, life, stimulates the mucous membrane to a healthy action, and cleanses and invigorares the whole digestive tract.

It may be safely taken at any time by young.

It is very effective in the early stage of Diarricea by removing the irritating cause.

Be prepared for emergencies by always keeping a bottle in the house.

(From Our Own Correspondent).

Entspained, April 7.

Considerable inter at attaches to a report that the Nippon Yussan Kaisha, the principal dapanese straniship line, has opened negotiat ons for the purchase of the China Merchanta' . Steam Navigation Company, mays the "Scotsman." In this connection it is said, however, that offerts are being made to obtain British capital in order to Suance the acquisition by the Chinese Government of the undertaking outright. an as to prevent it from passing under the control of Japan. Along the Coast and on the navigable rivers; of China this concern GENERAL MEETING of the SHARE. enjoys a large preference throughout, HOLDERS will be held at the Company's though it owes no obligation whatever to the State. All the same

is purely Chinese, financially and in ita constitution, but this does not debar it from becoming a foreign one in name, or from transferring a part or the whole of itfleet-most of the vessels are Clyde-builtto some other dag. To a large extent, It is understood that for the present the inauguration of a Chinese European line has been abandoned, as the Board of Posts 534 and Communications, Peking, is not in position to grant the subsidy needed for carrying out such an important enterprise.

MONTEREY AND LOUIS STEVENSON. Monterey, "The Old Pacific Capital, of which Stevenson wrote in " Across the Plains," is to have a public memorial to the man who found there, in Simmoneau's Restaurant, the "one particular place of entertainment" that stood forth incom parable in all his private collection of such institutions. The local shoemaker of Montercy, who need to cobble Stevenson's boots and hold long conversations with him, died recently, and in his will left 564 directions for the sum of £1000 to be expended in the purchase of a small public park, in which was to be erected a fountain. the whole to form a memorial to Stevenson. The Mayor of Monterey has arranged the Government, the third International site of the park, while a local-artist has h en entrusted with the design for the

SIR B. MUNRO PERGUSON.

The Prime Minister, who promised that he would not be far off during the interregrum preceding his return to Parliament, was within the precincts of the House of Commons on Tuesday, and made a felicitous speech in proposing the health of Sir R. C Munro Ferguson, the new Governor: General of Australia, at the complimentary luncheon given by the Scottish Liberals in the "Harcourt Room." The Right Hongentleman made allusion to the fact that just half a century ago the late Sir William Harcourt contested the Leith Burghs with Sir R. C. Munro Ferguson's father. The proceedings were private, but one of Mr Asquith's expressions looked out "I have put on " he mid, " the armour of Mars. but for the time at any rate I have put off to the International Conference held at the Parliamentary toga."

A POLITICAL TENSION. Some remarkable illustrations of the intensity of political feeling during the present crisis crisis are coming to light It is well known that old friendsgips have already been severed, much as in the days of the Home Rule split. Mr. Churchi l ban found it adviss le to cancel an engegement to preside at the banquet of the Royal Society of St. Goorge. Even more autonishing is the rudour that the parliam mtary golf handicap may not be played this your because of the bitter limitile feeling between followers of the Government and members of the

The death of Lard Rosebery's famous racehorse Ladas recalls the fact that the liorso's victory in the Derby anabled Lard Rosebery to win the wager he had made in his early days that he would marry the greatest heiress in England, become Prime Mini ter, and win the Derhy.

Mr. Robert Veitch, B. Sc. (both in Forestry and Agriculture), Elinburgh, has eccived an appointment na, entomologist rto the Colonial Sugar Renning Company, Fiji. He is a son of the late Mr. John Veitch, Edinburgh, and for the last, lifteen months has been on the staff of the Entomology Bureau, British Museum. Mr. R. A. W. Taylor B. Sc. (both in Forestry and Agriculture), has received an appointment with Mesers Steel Brothers.

Lird Elgin has agreed to accept nomination for the Chancellorship of Firm CEASED on the 30th ult. Aberdeen University, vacant by the death of Lord Strathcons.

What appears to have been an attempt Partner in our Firm in Hongkong and to set fire to the mansion-house of Spring- China from This Date. hall, two miles south of Rutherglan, was happily discovered in good time. The caretaker of the house was wakened by a poculiar noise, "and cutering the larder found a woman, apparently about 40 years of age. She was detained and handed over to the police, who made a search and found a revolver, suffragist literature, flasks of paraffin oil, and other articles.

An explosion, supposed to have been a suffragist outrage. occurred at Belmont Church, Hillhoad, Glasgow. The door of the furnace-room at the rear of the church was burst open and the woodwork shattered, but otherwise no damage was done. The police found a quantity of explosive material near the door, and a lady's tootprints were discovered on the ground.

Duncan Macpherson was playing gulf-Going out he drove brilliantly over a stream in a hollow: "My, but you was a fine drive ower the bonnie wee burn," he remarked to his caddie, Coming home he had to play over this same burn, but drove right into it. "Gang ye, and fish the ba' o' you dirty dmin." he growled.

At the invitation of the Notherlands Opium Conference will be held in The Hague in the second half of the month of May this year. Great Britain will be represented by Sir William Collins and Mr. Max Muller. A decision will then be taken as to whether the opium agreement shall be put into force, notwithstanding the fact that Austria-Hungary, Servia, Greece, and Turkey have not yet signed it. At the first International Conference held at The Hague in December, 1911, eleven Powers being reprovented, a Convention of twenty-five articles was drawn up, under which the Powers agreed to control the production and distribution of raw opium, and to use their best efforts to secure the gradual suppression of the manufacture. and the use of prepared opium. At the second Conference in July last year the Convention was ratified, therty-eight nations signing the Protocol. The Conferences at The Hague were the sequel Shanghai in 1909 at the invitation of the Foreign Clothes for gentlemen made to United States.

. During the first puriof the game, the bombin't am had rather the best of it. and kept the Frenchmen busy. The English the esquarter, King, got the ball and managed to seem in the corner, but the rations and converted. At half-time the social stead at 3 points to nil in favour of Lendon.

On, the resumption the Paris side put more like juto its game, and kept the but mainly in the English " 25." After Paris had been very near to scoring several times Guidenx brought the score evel with an unconverted try.

Thereoferward the home side had matters much their own way, and in quick star-posite truilloux and Andre scored two ment tries; the fermer of which was converted. 'London were unable to make up the less ground, and were thus heaten in 2 tries and a goal to 1 try off points to A.) w-Renter,

AMERICA CUP.

Shamrock's Chances.

Sir T. Lipton's Confidence.

New York, April 5. Sir Thomas Lipton, in a letter received at the feat percentage expresses supremo craffileness that the new challenger which h - is building will lift the America Cup. The letter, sent from France to Mr. / Winfield M. Thompson, says:

I think this time I shall have the best' heat I over crossed the Atlantic with, and I think my chances this year are on the winning side. I thought I would manage to get the Shamrock launched by the Togining of April, but I have serviced a letter from Nicholson, the designer; saying that he is afraid at will be the end of April or begining of May het re she is launched.

Sir Themas Lipton is going to ask the Your York Yacht Club to permit the towing of the challenger nerose in a calm and against head winds,

Towing cannot help the bont. The strain could not possibly do it any good, and might de it harm. The reason I am anxious to have her towed in dead culm wendfier is beenese it would give ! the scientists more time in America to get my bent in a fit condition for the race. I might be beedmed two or three weeks at different times; there is no saying what might happen. I shall make this request of the ciub at a later period, I should think, after the bont

has been humehed. Two of the American Cup defenders, Reschite and Vanitie, will be launched on April 25, but Defiance, will not touch the water matil May 11. All three hous-"No. 6 CAMERON VILLAS, No. 58 | ver, will be ready for the trial ruces to decide which will represent America against Shamrock. This year Mr. Fres. Herreshoff, the designer of Resolute, will be us a disadvantage because Charles Barr will not be ut the helm of his bont, an amateur taking his place, with Christiansen, Barr's veteran mate, at his ciliaw. Defiance and Vanitie will be emptained by Americans, and if either qualify to represent America against Shannrock IV., the old charge that America has to import a Scotsman

to rotain the cup will not hold good: Sir Thomas Lipton's hopes of success this year are probably inspired as well by faith in his own craft by the know. their producessors, are something more with Stevenson leading by 831, and long overhangs.

At night Inman commenced well by

taking an unfinished 2 to 294 before

failing at a difficult forcing losing hazard.

Stevenson replied to this with 49. Missing a long ball-to-ball cannon, he let Inman in at his second turn for 97. The leader made a single-figured move. and his opponent placed a single baulk. Stevenson secred a olever three cushion cannon, but at 22 he failed to put down HI Cano the red, and took only a very minor part in the broak making that ensued until his last imnings of a surprising display. Playing soundly, and keeping the series of positions from complications, Inman went on with compositive Pumpanga breaks of 142, 83, 144, and 105 (un. Piscstagus finished) Prior to the last mentioned, Pompey Stevenson had interposed a pretty 114: Quiron but, catching his man at 6,081, the clientpion finished in in possession of the tuble, with the servicesbie lead of 165. were destroying the life of the people. These remarks have been provoked by the persual of another stern edict in relation to the paper currency of Canton by the Governer-General. How many have been issued it is difficult to say: but the last is unnamally severe, and tells the people if they do not obey his instructions, and: use this paper money, they will meet with punishment that will soon make them wish that they had obeyed. But what has been the result? Have any of the business people listened? Yes, we hear. But what has follow-We have been informed that one or two big shops, where managers are supposed to move along modern lines and respect the laws of their country, pay and receive these notes. But when they are able to circumvent the real object which the officials have in view, we are informed that they take notes and, instead of disto get hold of something more than North Carolina, U.S.A., to Mr and Mrs WINDORNE (Mrs Winborns not Jernigen), a

two notes for one, and in this way LENT .- At the Nursing Home, to Mr they still discount the notes at something more than fifty per cent. It would need a Chinese firm to arrange a matter in this way and certainly a people like the Chinese to submit to it. The whole affair seems to resolve inself into the fact that no edict wil really danything that the masses of the prople are determined to escape from. We have examples in our own H. B. CHINESE EDICTS.

Possibly China excels all their countries in the number of official edicts which her rulers issue, and, at the same time, in regard to the practical " results that frequently language intinjate that the people many years to come. must forego their usual habits, and not follow the customs of past years. Still, the things that are wont to be done are done, and the officials seem things are not allowed. All readers of Chinese history remember the many Consent School. edicts issued in connection with the opium trade, and yet whilst these edicts were published from time to stoanboat where fell into the harbour t me both from Peking and also in the just night and was recorded by one of the provincial cilies, the trade went on just coolies, named Mak ling. for sale. Thus though they take the A-in. The rate to India. Burmah notes at their face value, they manage of the lare Andrew Law and Mrs John We are reminded of the times of the Great Plague in England. " The labourers of the countryside died in such large numbers that the great lords could not get labourers to reap their fields, and so their rips crops maining labourers decided to mise little time each man could demand about twice what he was getting a comple of years before. Then the Commons and the Lords passed a bill that the labourers should be compelled to work for the same wages as they were getting before the days of the plague. The Statute of Labourers. as it was called, was passed; but it failed. Other Acts followed quite rapidly one after the other. But all Brutton's Raco l'onies at the Polo alike were abortive. As a matter of fact, whatever the few might thin they could not coerce both farmer and labourer, unless one or the other as a class was willing to undertake the working of the new law, and so, whatever Parliament might say, the worker held firm and had his way. It has been much the same in China, except that, what is an exception in well-governed countries in China is the rule. The officials at the centre issue an edict, and wonder whether failure in this regard is not supposed the to be derogatory to the prestige of those who issue the edict. So the paper is issued, and then those specially interested stand by and await results. If it can be applied, those who have been on the look-out for some advantage for themselves will have their own way.: If it fails, no one is the worse off, for those engaged in preparing edicts might as well spend their time at this as in doing other equally useless work. Thus the custom grew up, and has continued till this day. Une of the needed reforms in China is carefully to see beforehand what is needed to be done, and then by some means to feel the pulse of the people that it may be ascertained whether they are likely to be induced to follow the course outlined; will issue an edict as to the useless whatever cost. We are a long way ness of the doings associated with the off from that ideal in China yet, and festival, and in somewhat uncertain seem likely to fail to reach it for

Sir Paul Chater was defendant in an action which came before Mr. Justice Gomporta in the Supreme Court this mor: ning, he plaintiff, George Lanzius, mining engineer whose address was giron as the Astor House Hotel, claiming \$45,000 for professional services rendered, and \$156 fully paid up shares of \$100 each in | at Houng Chow, near Macao

Plaintiff's statement of claim set out that by an agreement in writing dated July 22, 1905 defend at and the late Sir H. M. Mody jointly contracted with plai tiff and another engineer named Archibald Camp bell Mc Willan (since deceased) that consideration of plaintiff and McMillan prospecting in the New Territories and adjacent British islands defendant and

Plaintiff claimed in the alternative to the 1564 shares in the Hongkong Iron Mining Co., Litd., thosam of \$15,650. Mr. C. G. Alabaster and Eldon Porter, instructed by Messts. Stephens and Willson, were for plaintiff; and Mr. E. H. Shurp, K.C., instructed by Moser D acon.

Looker, Descon and Harston represented

Mr. Alabaster in opening said plaintiff, baying a theoretical knowledge of mining, came shroad to obtain practical experience, and had worked in South Africa, Khondyke, the West Indies and other places. Hongkong he met McMillan, and they tained an introduction to Sir Paul Chater and Sir.H. N. Mody. As the result of proposition plaintiff and McMillan made to defendant and Sir H. N Mody an agreement was entered into botween them in July 1905. Under it the expenses of prospecting to be undertaken by plaintiff and McMillan were to be paid by Sir Paul Chather and Sir H. N. Mody. Development was referred to in the agreement, but it was not mentioned who was to pay for signed plaintiff and Mc Willan disclosed to Sir Paul Chater discoveries of minerals which they had made, and developed the mines. Plaintiff and McMillan fully expected to he paid for their work but they were put off from time to time, and told to wait and this they were content to do for a time, as they expected that their remuneration would depend, largely on results, After the first agreement was signed plaintiff's papers and note books as well as some of

his household effects in the New Territories were blown away by a typhoon By this time an iron mine discovered by plaintiff had reached the flotation stage when plaintiff solicitors wrote to defendant with reference to the assignment of shares. This was followed in September by a letter with reference to the agreement in which it was pointed out that the services rendered by plaintiff and McMillan had not been recognised. It had been agreed that to the strains of martial music in the Indian | defendant and Sir H. M. Mody should pay camps Recently it was intimated that three quarters of the expense incurred in several native regiments would be with- developing the iron mine, and plaintiff and his partner the remaining quarter: So far as the expenses of pr specting were ing paraded in full dress preparatory mont plaintiff and McMillan were to pay nothing. First it was arranged that plaintiff and McMillan should pay their

proportion in sharer, as they were without funds. The company was floated with a nominal capital of a million dollars in ten thousand shares of \$100 each. Of these the vendors were to get 7,250 fully paid-up shares. That left 2,750 to he treatment. issued to the public. These shares were issued later on and calls amounting to 820 were made. According to the agreement there would be 5 437 fully paid-up rendors suares for defendant and Sir.H. M. Mody to divide between themselves, and 181 for plaintiff and McMillan, Out of their 9 161 shares each plaintiff and McMillan were to pay back their quarter share of the expenses of the iron mine. On November 29 the company was in corporated, and plaintiff and McMillan were each given 750 shares on account : they were to have the balance when the accounts were taken and it was ascertained what was due to them when their share of the expenses had been taken into account. If they had to

pay nothing they would get a further 15% charcs each. As a matter of fact the accounts had never been made up. His Lordship: Do you mean that they have never been made up in the sense that

they have not been handed to you! Mr. Alabaster replied that that wa his menning. They were never given accounts and there had never heen settlement of accounts ; they were claiming the whole 1564 shares in case they

should claim too little.

To complete the wory, Mr. Alahaster said, Lanzius and McMillan continued to develop the various properties and iron mine and also managed other decisions and authorities on company and Lanzius was in charge as manager of the properties at the request of Sir Paul the company, but acted for Sir Paul Chater he had quoted there could be no ques- Capt. His first could be no question that dofundant and It Stewart second year's interest. He wrote to Paul Chater to arrange matters, what happened to that letter was not kn en : it had evidently been lost. Father, in plantiffs absence, being on-

able to get the interest, sold the shares for nform us who parchased them. Mr. Alabaster continued. We have reason to believe that Sir Paul Chater purcha ed most of them, as several of them still stand in plaintiff's name though of course be has parted with all of them. When plaintiff returned to the Colony the French Fathers obtained judgment against him for the talance due to them on their transaction. Mr. Alshester then read the correspondence which persed between plaintiff's and defendant's splicitors. On October 30

Mr. Al baster having g ne through all the correspondence, his Lordship inquired the value of the sharps and was informed that their present market value was rather peculiar. The shares, Mr. Alabaster said. are not on the market, and the public

shares are liable to a call of \$:5 ench. But the shares Sir Paul Chater controled were of course paid up. There was still 875 a share to come from the pullic if the company was wound up and that alone would be sufficient to pay from \$20,000 to 825,000. In addition there was the iron mine, on which the company had a 70 years' loase, and which contained a large quantity of iron.

Mr. Alabester explained that some

difficulty had been experienced in working the ore owing to the difficulty in getting Brock coal, but that would be minimized by the introduction of modern oil driven machi- Cousins nery and the mine was likely to become a Stewart very valuable property. The value of the McLengan mine stood in balance sheets which were regularly issued at \$750,000, so that would make the present value of the shares 275

Mr. Alabatter then quoted a number of partnership law.

He submitted that on the authorities single moment to enter into partnership with plaintiff and McMillan, whom they had never known before; a partnership under which plaintiff and McMillan by representation under contracts could have involved defendant in enormous sums; and there could be no doubt that Perhaps Sir Paul Chater will be able to the agreement was not a partnership agreement at all. It might be argued by the defence that plaintiff's claim should be against the company after its incorporation, but plaintiff was never employed by the company at all. "TAI ON" PIRACY.

PULPIT REFERENCE.

Prenching at St. John's Cathedral yeaterday morning the Bishop of Victoria (Dr. Lander) referred to the "Tai On '

He said he was glad that a fund had been started to help the sufferers. He hoped members of the congregation would support it. The fact that some could only submit a small sum should not deter them from taking part in so desirable a movement. At the close of his sermon special prayer was offered for the relatives of those who lost their lives.

The "N. C. Duily News," in their issue of 20th alt., thus comments on the

The story of the piracy of the small British steamer Tai Ou immediately after leaving British waters at Hongkong on Monday night, reads more like a tale of sixteenth century buccancering than of modern commerce. Such daring outrages are becoming far too frequent in southern waters. This is not the Tai On's first experience, while only in March the Norwegian sas. Childer was neized by pirates, who overpowered the huropean officers, ransacked the ship, and took away property valued at over \$20,000. It would appear that merchant vessels are practically safe so long as they are in British waters. Owing to the difficulty, of stopping a ship at sea, the nirates emburk as passengers in Hongkong, and as soon as they are in Chineso waters seize her. Some time ago the Governor of Canton supplied guards for merchantmen, but these have not retarded piracy as they are unable to detect these criminals when they embark as passengers. But surely some greater vigilance should be exercised by the police in Hougkong, while pressure might he brought to hear on the provincial authorities to cease temporizing with piratoes of all descriptions, and to-take such steps as will ensure the detection of these men when they land in Chinese territory. The fact that criminals are able to board steamers at the wharves in Flongkoug casts a serious reflexion ipen the police of the Colony.

BIG HAUL OF AM-MUNITION.

The police at Yaumati, under Inspector rard of the Yaumati Police Station, who Gerrard, have made another big haul of connection with this piracy. He had the -ampan lad was seen carrying a black. assistance of an armed Indian guard, one handkerchief in Shanghai Street, Yausergeant and nine privates. The pri- muti. A lukong stopped him to ascertain soners were chained together and placed the contents and the boy immediately on the upper deck, the native soldiers attempted to bolt. The lukong held on mounting guard. No other passengers and in the ensuing tuesle was roughly were permitted on the upper deck, and handled. An ex-constable came to his ussistance and with difficulty the prisoner On strival at Hongkong, the prisoners was removed to the station. played on in the Singles Champion-hip, se that instead of being compelled to play on neutral greens as hitherto, players may arrange between themselves which green they shall play on. "The committee hope that this alteration will ensure a much

greater entry for the championship. BIAR OF CHALLENGE WOODS.

It was announced that owing to the fact that some of the bowls played with in the matches last weenn were open to suspicion with regard to bias, the serretary communicated with Meesrs. Thomas Taylor of Glasgow who very kindly sent particulars as to how bowls, could be to ted locally. An apparatus has been made according to their instructions, and the committee have decided that all challenged bowls must be tested on that apparatus, by a committee: consisting of Mesers. Howell, Withers and Frost, against the standard bowl" in the nonsension of the Kowloon Bowling Green Club. In the event of the challenged howler heing found to he less than No. 3 bias, the player will, be disqualified. All howle will he tested free of charge, at the Kowloon Bowling Green Cluo, and it is advisable that players make sure that their howle are correct before playing in any of the matches.

YACHTING

Royal Hougkong Ladies' Day

A large number of members of the Royal Hongkong Yacht Club and their guesta attended the Ladies' Day regatta on Saturday, among them- being H. E. the Governor and Lady May. Two races were sailed, one being for cruisers and the other for Yachts of the one design and handicap

classes stoered by ladies. The cruisers started at 2.30 in a very light wind from the N. E. with a strong ebb tide running. The Flora and the Miranda were over the mark at the start and it took them a long time to get back, both of thom losing from 15 to 20 minutes

n this way. The ladies' race started at 2.45, Dinne being first over the mark, very closely followed by La Linda and Kathleen. The Rolla was unfortunately caught by a patch | Kuongeang, for Canton. of calm and got a bed start. The breeze Feiching, for Canton, later freshened up and held steady from Luchow, for Canton. the North, shifting round after a time to Albiana, for Canton. N. by W. The boats hung together prestily until Lyemun Bescon was reached, the order of passing being Dione, La Linda, Rolla, and Kathleon. After jybing round the mark, La Linda here stood steady on the starboard tack, the remainder, however, hugging the Devil's Peak shore. By this means La Linda secured a comfortable lead which enabled her to win.

Rolla coming in second. The finishing times in the Ladies Race

were as follows : Fin. H'Cap.	Cr.

WATCHMAN MURDERED.

Mysterious Affair at Government Civil

A mysterious murder occurred shortly before 7 o'clock yorterday morning, the Indian watchman at the Government Civil Hospital having been done to doubt by strangulation. The police were ap prised by the cutrage and commenced inquiries, but up to last night no arrow had been made.

Further details are to hand this morn ing regarding the murder of the India watchman. His name is S. Buioucjee marel 55 years, and he came from Singa pore. He was well-known in the vicinit and money matters are believed to have inspired the erime.

The tragic discovery was made by M Chapman, of the Hospital, when makin his asual rounds yesterday morning. I found the watchman in his room wit his hands and feet and neck tied. M Chapman cut the bonds and had th removed to the receiving room, whe life was found to be extinct.

No arrest has yet been made.
